Wayne, I was just about to ask you if you received anything from HQ. Did you receive any others? I see we don't have a time scheduled to discuss this or the EM briefing until tomorrow morning (which is fine), but want to send this to EM by COB today. So, I am fine with your incorporating any comments and sending this on to him, unless any of you want to discuss (I can be available anytime this afternoon). Seems like most of Stuart's comments make sense, although not sure what we think about his comments about taking samples to the lab. We don't have to resolve all these before the briefing tomorrow. If you don't want to accept all his comments, just accept what you like and keep note of those unresolved issues. (or OK to leave a comment in the margin)

Thanks, John

Stuart and Mary –

Please see the attached draft briefing paper on the (currently informal) Hunters Point dispute between EPA and the Navy. We would appreciate your quick staff-level review, by noon Wednesday if possible. We plan to brief Enrique on Thursday, and expect him to send out a revised draft to Dana and Greg late this week or (more likely) next week. Thanks.
